④ Optional Event

Jewel and Chris investigate the building inside the awakened
ruin and talk to the person inside

Trapped Salesman: "Thank you for opening the door, I have been too
in there for months. I am normally a healing potion salesmen
however I was knocked unconscious and stuffed in this small room."

Jewel: "Well at least you were conveniently prepared"

Trapped Salesman: "Would you please check my store
it tolled again"

Trapped Salesman: "I am starting to feel better; here check
my store I added a few more items"

I don't get the wrong idea I am not planning on having sex]

don't get the wrong idea; just it is a long way to control

city and the only post route got blocked off." }

(8) after leaving the awakened ruins and walked out

Jewel: "mine is the one with oblique roof"

(9) Jewel and Chris enter Jewel's house and each goes into their own bed screen goes black

2 loud knockers heard

Chris: "I guess it is OK to teleport inside"

Screen returns

Jewel: "Are we under attack? no it is just the wonderer
out he does tend to go as he pleases, he can be a butthead"

Chris: "That is not a nice thing to call your boss"

Jewel: "[not in game]
Showing up uninvited is also fucking rude so I am just
returning the favor, this is not an RPG or a video game"]

to prevent you from looking through all my shit?"]
uh uh and what am I some sort of monster to prevent
you from looking through all my stuff"

Chris: "not yet at least"

Jewel: "[not in game]
whatever, do you have anything to say or are you just
trying to be a shitty houseguest" whatever do you have
anything to say or are you just trying to ruin my sleep"

Chris: "the world is ending, the distortions are getting worse!"

Jewel: "what do you mean and what distortions are you talking
about? or are you talking about your face after I am done"

with you"

chrys: "Um the moon and mors switching places be a good start. control city literally turned into chrys, and I know it sounds like I am lying but it is true" light blows up the door and launches chrys at jewel! [not in game] jewel: "[get off me you fucking asshole! I must be dreaming because now there is a monster bitch that is destroying my home, an ass hole, and amute all in my house]" get off me you fucking butt head! I must be in a nightmare because now there is a monster destroying my home"

light: "your world is about to end and"

chrys ^{cutting} lightoff: I already said that and now, next time you come up at me make sure there isn't anything behind you"

light: "jewel I wish I could say this is a nightmare."

light: "I have been offered to evacuate you because your planet is on a collision course with the sun"

jewel: "might as well go with this, its not like this day will get any fucking [fucking] worse"

light: "my name is light"

chrys: "my name is chrys, chrys sign"

jewel: "I guess I will continue this, I am jewel and [he/she] is called [player name]"

[not in game] jewel: "why didn't we do this earlier" persil talking through light's phone: "Heat shield activated, please return to your ship immediately"

light: "I guess that is our cue to go, the ship is in the north eastern area in the awakened rings"

(10) as soon as the group enters the awakened rings

some orbs orbit jewel and when they touch her she gets turned into a monster

jewel: "[I feel like I was fuckin' punched in the face]" she passed out soon after] "I feel tired"

light then teleports jewel

Chrys: "Light did you just... vaporize jewel?"

Light: "No I just teleported her into the med bay of the ship"

Chrys yelling: "Why didn't you do that earlier?"

Light: "I only have enough magic energy to teleport one and she is the only one that may need medical attention. It looks like the road up ahead is blocked off."

Chrys: "There is a rift up ahead, we can go enter them and they may lead us somewhere."

Light: "I don't know do we really have a choice?"

Chrys: "Not really; there is not enough time and the heat shield looks like it is shrinking."
After entering the rift.

Light: "Where is everyone?"

Farlight is the current leader { }

Chrys: "We are also in the rift but you are in the primary rift"

Light: "Primary rift?"

{ else { }

Chrys: "We are also in the rift but you are in secondary rift"

Light: "Secondary rift?"

If Chrys is not the leader { }

Chrys: "The person who is in the primary rift is [Party] [Index]"

{ else { }

Chrys: "I am in the primary rift"

{ }

Tutorials on how to manage platformer controls then the party

leaves the rift and boards Light's shuttle

Aboard the temporal light

(11) Chrys: "I am going on ahead to see if I can find Jewel"

Light: "Wait you don't know... he's gone. Well anyways we should be heading to the control room, which is in the front of the ship."

(12) A solo player and Light enter the control room access room

The doors close and lock

Light: "That's odd why would the ship be put in lockdown?"

6

Light notices someone teleported behind her

Light: "Looks like we have an uninvited guest"

Sirrus: "Thou shalt perish now"

A battle then ensues once either Sirrus's HP is at 25% or party dies: Flore enters but Sirrus uses magic to choke Light

Flore: "Sirrus! What are you doing? Stop this or I will be forced to kill you."

Sirrus: "Thou shalt die, I am just vanquishing a monster and nothing more"

Flore ^{whispered}: "Sorry Light I will cancel your magic power for a moment"

Flore becomes in an enraged state

Flore: "You will regret attacking me on my home turf"
The battle is restarted just Light is replaced with

Flore and battle ends when Sirrus's HP = 0

Flore: "Give back Light!"

Sirrus: "Fine take your pet it offered me amusement enough"

Flore: "Did you think attacking me is very smart and what did you do to my daughter? If you did what I think you did"

Sirrus cutting Flore off: It looks like my time is up I'll be leaving
bye" Sirrus teleports out into a pool of darkness

Light: "Forget about me the timeline is starting to collapse completely"

Flore: "I'll go to the control room, and who is this?"

Light: "They are [Player name] they come from this timeline"

Flore: "[Player name] can you escort Light to the med bay you look trustworthy"

Light: "What brought you over here?"

Flore: "A person in green passed by me. Is he a friend?"

Light: "Yes"

⑬ Upon entering the living quarters the screen goes black

System: Light passed out and turned into a pile of blood and just

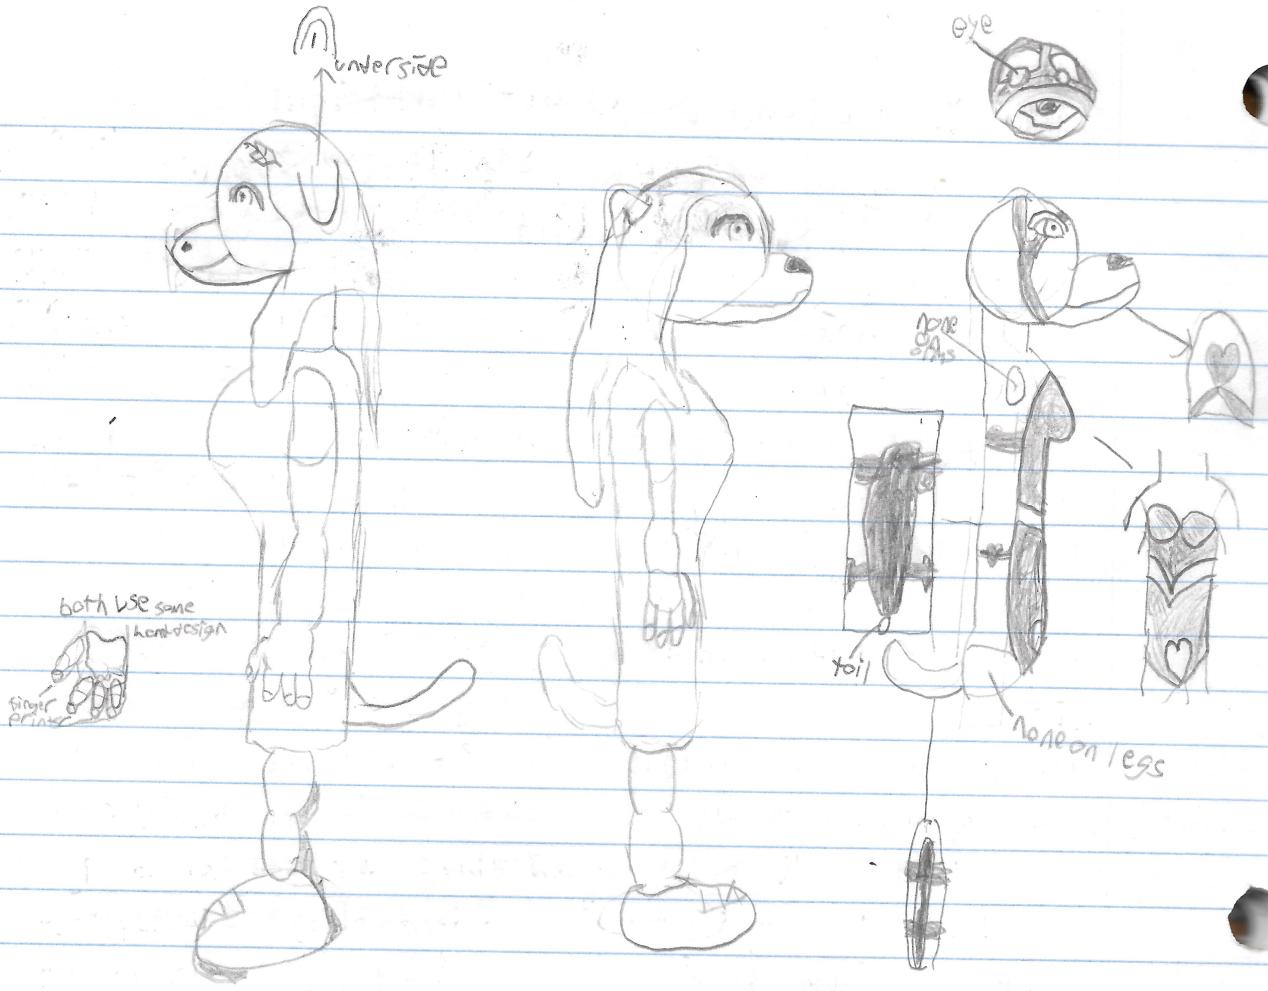

Flore blamed you for killing her and killed your jewel and says "game glitches out"

7

system: "Light passed out and sign was nearby and barely managed to put her on life support

① Jewel awakens in a bed that is not her own. She notices the weight difference but no physical (A spell was placed on her to make her see herself in her alt human form, though in the last chapter she was turned into a monster)

Jewel: "Something is off... why does my voice sound weird"

(original) Jewel thought: I'm not the bitch who destroyed my front door? I must be dead in this nightmare.

(game version) Jewel thought: Is that light? I must still be in the nightmare

If player tries to leave without interacting with light

Jewel thought: "Why am I leaving, there are still some unanswered questions. Why am I thinking this or all... could I be currently played by someone... now you have been playing too many videogames"

Jewel interacts with light Light wakes up with a really bad headache

Jewel: "Light wake up"

Light: "Agh my head hurts so badly... who are you" (Unaware of Jewel's form has changed)

Jewel: "I'm Jewel" [noting game cont'd bitch like you remember a name and] "Can you answer a few questions like where are we and what happened to me"

Light thought: [not in some what her problem maybe it's talk to the asshole she will behave]

Light: "I cannot tell exactly what happened to you but I think we may be in the main lunar medical building or my home, I am unsure until we leave the room"

Jewel: "Can you at least guess? though Lunardays explain why I feel significantly lighter" [noting game ... wait Luna you mean I am on the moon]
[light nags in agreement]

Light: "If I were to guess, it could be some tried to change the past to support complex monsters and your lineage was affected"

Jewel: "But how do I still remember the past timeline if this is the case"

Light: sometimes if someone is generally emotionally strong memories can persist through timeline changes, but usually in a form of déjà vu, let's get moving

Jewel and Light leave the building

② Jewel and Light are just outside of Light's house

Light: "Looks like I am home at the royal palace of Luna"

Jewel looks stunned and embarrassed and yelled: "WHAT!"

Light: "I guess I never formally introduced myself. I am the crowned princess of Luna Light crystal Lightbringer."

Jewel is still dumbfounded to speak

Light: "I guess we should check in with my sister Peryil. She is much more knowledgeable of timelines and their mechanics. She lives southeast of here, inside the palace walls." Jewel and Light travel to Peryil's house then to her workshop.

(3) Peryil: "Light you're finally awake I thought you might die at any minute when you were passed out"

Light: "Why did you think that, how long have I been unconscious?"

Peryil: "You and that monster lady have been unconscious for 2 months!"

Jewel: "I am not a monster I am a human!"

Peryil: "...Um, Light I know you mess with your patients but using mental magic to convince a monster she is human is a new one!"

Light: "I did not use mental magic on her, [not in game but I wish it], in fact I seen a few obs surround her and transform her into what she is right now... and teleporting her into the temporal knife is possibly what contributed to me passing out from magic exhaustion... I am sorry I didn't tell you earlier; I did not think you forgot your lost minutes of consciousness, and I did not want you to panic, can you forgive me? ... Though now that I think about it you have been walking pretty good for someone who had multiple changes to your center of balance and..."

[Light reads jewel's mind to find a transformation adaptation curse applied] "oh never mind!"

Jewel: "Yes I guess, is she Peryil; she does not look like you at all are you adopted?"

Peryil: "Yes my name is Peryil, but I am the one who was adopted!"

Light: "Where are the others?"

Peryil: "They are in your library last I checked."

The group arrive at Light's library and Jewel approached a note at the back of the library.

(4) Light: "Peryil how long was it exactly that they were here?"

Peryil: "About 10 minutes ago"

Light: "So at least an hour knowing how you get lost working with machines!"

Jewel reading the note: "Going to your Mother's memorial - Flare"

[noting some jewel thought: I may of misjudged light but I am not sure it is light or peryll being referenced]

Peryll: "Well I shouldn't of dared you from not using combat magic as I heard what happened to you from Flare"
the whole group walk over to Jen's memorial there is a statue of a creature that looks similar to light only black fur coat instead of pink, yellow rather than orange eyes, below the statue is a square platform with a plaque on the front

⑤ Jewel reads the plaque: Jen Fracture Wolfsbane Lightbringer

born: May 13 6477 died: July 9 6500

A shining jewel to the future, may her legacy live on with her child

Jewel then loses consciousness and passes out

⑥ the dream ends and jewel wakes up in a hospital bed, light, reryl, chrys, flore, and [Player Name Here], jewel also noticed her outfit majorly changed

light: "Sorry about your clothes but soon after you collapsed your clothes spontaneously combusted; the only outfit I had that fit was my old school clothes"

Jewel: "I need to talk to chrys and [Player Name Here], the clothes do look good though"

Light nods and leaves the room (along with those not chrys or [Player])

[Player]: "What is the matter"

Jewel: "In my dream I talked to a person who called them self Chrystal and she told me to tell you chrys that Feryll is alive and is forgetting both of you. Also I have a few questions like who is Chrystal or Peryl and why am I looking like"

Chrys then explains what happened

Light: "I suggest anything we can do"

Chrys: "there is only one blade known to damage Feryl, the temporal blade with me is one scroll"

Chrys then explains what happened

Light: "I see anything we can do"

Chrys: "There is only one blade known to damage Feryl, the

a while ago so we need to forge a new one. We need to seek out — time crystals ~~to make a blade~~ and I'll need ~~2 different ones~~ to make a blade... at least 7 to forge the Flore." "I know where this universe's crystal is, it is in blade. the center of lake serenity, which is right next to this building. there is a invisible pathway leading to the rift cavern. Chrys and I will get the temporal knife ready while the rest of you, good luck."

Chrys: "Alright, and be careful, Peryl was designed to be a great combat strategist. The moment she gets wind of me stopping her, she will try to stop the blade being forged." "Here and Chrys leave Light: "I noticed when we were back at Peryl's that a transformation therapy curse was placed on you and I think the full curse was placed rather than a partial one."

Jewel: "What is the difference and I think that curse was lifted in my dream."

Light: "A partial curse only adopts your sense of balance (and slowly lowers in frequency until the cursed is fully adopted to their body). A full version also adopts the cursed self image of themselves to look like how they were before transformation. Since you said that curse was removed I am going to put a partial so you could at least walk around."

Jewel: "Fine but next time make sure to tell me if something seems off." An orb of light envelops Jewel.

"I do have one question what happened to my clothes?"

Light: "I don't know what caused it but your clothes spontaneously combusted and the clothes you are currently wearing is my old school uniform"

Jewel: "Are you sure Peryl didn't accidentally cause it?"

Peryl: "That is not possible as the only fire I can control is the flame on my tailfeathers; I actually use ice magic

the group leaves but just before the group leaves

Time: "Light I see you have wokened I have taken the trouble of doing your scheduled appointments; I even put a therapy curse on that master lady,

I also had to perform surgery on your neck for that it will be 2,000,000,000 nute"

tyme: "I even was promoted to grant healer which is a higher rank than you in government right trying not to laugh: lets count the bad practices and inaccuracies you just said, first you used the full version of the therapy curse which is very detrimental, secondly that is more than 1000x the normal rate which is a felony and lastly I am a princess of this world which is higher than grant healer and not by a close margin".

Jewel: "Who is this?"

Light: "An old colleague that insists on being my rival for best healer in Luna; I will forgive your transgressions against me but, the ones against Jewel I cannot due to it not being my decision to make".

Jewel: "Just this time I will forgive you, but next time if you do anything medical or psychological on me do it right... I don't even know your name"

tyme: "the name is tyme sagefairy and I will be the best healer in Luna mark my words."

Jewel just realized tyme's name is a plain joke

Jewel's thoughts: She must get starstruck a lot with a name like that maybe that is why she is this way.

Jewel thought: "I do have a question"

Player choice

Story - INT[6]+: Is Light's fur color naturally pink?

tyme: as far as I known her it was pink however this is not a normal color for monsters of her type so it must be either a long lasting spell or she is spending a fortune in hair dye.

Light: It is the last spell my mother did; it is an ancient protection spell and that is all I know and the few that do are very tight lipped on the specifics even

^{close choice} going to the point of using blockers against mental magic

Story - INT[6]+=10: What is the rankings on Leechers and what do they allow?

Light: the rankings are as follows

lowest is nurse which is just learning from a higher rank and usually only low risk procedures

are used as a test to the next level, surgery or high risk procedures. The next is Doctor which is basically nurse but is no longer a learner and can do some surgery or mid risk procedures. Next is healer which on healing is where I am at these have no limitation to most procedures but cannot do medical procedures on the opposite race type such as monsters cannot do procedures on humans and the same in reverse. The same is true for most of the rankings. I am a rare exception to this rule"

Time: "I never understood why"

Light: "there is 3 reasons, first I am roughly half human, second I took the oath grant master healer's joke to get the exception and third I understand how both work internally"

Time: "you aren't tempted to use soul absorption for power are you... you have done it once haven't you"

Light: "I am not tempted as I done it once and disliked every minute as the one you absorb gets partial control of your actions. It was a long time ago on assassination killed my bodyguard and I used the power to fend them off. It was a good thing perh was learning robotics so I placed their soul inside it and put a magic seal to prevent accidental soul leakage when damaged, lost the council knows about this and is why I took the oath. Where was I oh yeah the next rank after healer is grand healer which manages all the healers. lastly the highest rank and the only one to do cross race healing without exceptions is grant master healer, in order to get into this rank you have to get permission from

close circle - the council of healers, All are grant master rank.

Jewel thought:
Sterl - INT 6 ± 100; nevermind

Jewel: let's go we have a crystal to receive the group or the edge of the water's edge then light steps on top of the water

Light: "come this way the platform is just invisible"

Jewel: "why invisible platforms"

8

light:"this is done to prevent unwanted intruders seeking multiworld destruction, I could be wrong but that may of caused your timeline to collapse due to crystal destruction as these crystals manage and maintain the time space continuum.

⑦ the group follows the invisible path and enter a spacetime rift light:"this is farther than I have been before so from here on I have

no idea on the layout

Jewel:"where did everyone go I can hear you but I can't see you"

light:"we must be in a spacetime rift just follow any sound that is made".

after platforming through the rift the group arrives at a chamber filled with crystals and a crystal fox at the center.

Vixen:"I know why you are here. you need my essence for ablate but, before I do, everyone must pass a test. [player name here] you must delete your record of adventure."

System:"Deleting save file(s) in 3... 2... 1..."

[CON_Lose = true] - this disables gameover checking

Vixen:"Jewel you must confess a crime you have done in the past"

Jewel:"....."

light:"there is only 3 people from your timeline so whatever you say won't be held against you"

Jewel:"I ... poisoned my old boss after I caught him stealing 95% of my paycheck, and somehow got away with it in court."

A ringing sound is immediately heard

Jewel:"Chrys what does he want now"

Chrys through the phone:"So it was you, I thought it was your mother!"

Vixen:"Since you called "chrys is teleported in." you must say hi!"

Jewel:"you to realize most modern phones have a speaker function"

Vixen:"Sorry I did not know technology has gotten that advanced"

Chrys: "Hi, I guess"

Vixen: "that will do" Chrys is then teleported out of the room

A splash is heard "I teleported him into lake tranquility
for your rudeness jewel"

Vixen: "for the rest of you, you must fight your biggest
enemy" Time and a mole Phoenix are teleported in
win or lose:

Vixen: "I have no choice but to give you a crystal
essence. those you just fought were copies. I was doing
this as a test for [environment username] so whether you
win or not won't matter"

A crystal then floats to jewel

Perytl: "I do have a few questions; what is your name,
could we use synthetic time crystals, and lastly can
I use multiple of the same type?"

Vixen: "my name is Vixen crystal fox ... synthetic crystal
can be used but won't be strong enough as you would need
to compensate by using a massive amount of magic power
which is more than you or light combined at each of your strongest.
lastly unique time crystal essence must be used as this allows
the fusion to take place"

Vixen: "I have automatically added myself to your phone's contact
list, and since I am fired" everyone is teleported into
the military zone on Luna, Chrys walks up to the group
soaking wet

Chrys: "did you get the crystal?"

Jewel: "yes"

Chrys: "good because you need to use the temporal knife to
get to parallel universes each having their own crystal"

3 chirps are then heard Jewel then checks the phone

Jewel: "Vixen just sent us what looks like coordinates but
this looks odd"

Perytl: "let me look...! these are coordinates the temporal knife uses
for navigation"

Flore then walks up

Flore: "I arranged a crew for the temporal knife come ~ I will brief everyone"

the screen then fades to black then out into a room with multiple people in it (humans & monsters)

⑧ Flore: "I have brought everyone here due to a threat against the multiverse"

Flore: "I will now give you over to Chrys Sygnis as he is the resident expert on the matter"

Chrys tells everyone on what Feryil is

Chrys: "She will try to corrupt every universe's time stream, which on Flore will refer as timelines. Now if she corrupts a timeline it will put the timeline into a paradox state which is preferable to it she gets the timeline's time crystal in which permanent damage to the timeline will occur."

time: "Is there any way to stop her?"

Chrys: "yes there is ONLY one weapon to be effective against her that is the temporal blade, however the weapon was split apart years ago as a precaution against temporal abuse, however I know how to forge it, though it will need ^{unique} essence of time crystals.

each timeline's time crystal can generate 1 every 100 years.

Chrys: "as such I will give you back to Flore on how you are going to get to these timelines."

Flore: "we are going to use a starship capable of multi timeline travel, the temporal knife. this ship was designed and built by my adopted daughter Feryil Burnfeather. I am splitting this group in two one to the main temporal knife, and the second to a backup which while it is not in use will be mission control"

Flore: "before I name the assignments is there anyone that wants to back out. this is your last chance to do so without punishment?"

if the player exits the room within a minute:
the screen goes black

System: without your help the group was unable to create the temporal blade, as such Percy killed everyone except for Chrys and Chrystal in which they are in permanent stasis and every universe died.

"the end"

If the player stays in the room for a minute

Flore: since no one left I will start with the temporal knife crew in order of command

Ship Captain & primary medical officer: my daughter Lightbringer however as per legal issues another medical officer will be appointed later in the list

Lead engineer: Percy Burnfeather

Navigational: jewel toy break but will learn from penit until proficient

Secondary medical officer: Tyme Sagefairy

Head of Security and weapon Specialist: Nuke Doublefire

Captain's bodyguard: Bright Signet

Diplomat: [player name here] "SpaceTime"

One: are you sure it is wise to have an outsider be a diplomat

Flore: let me finish

Lawyer and diplomat enforcer: our city, this is the one above have the same level but seniority has preference here

Monitor and Chef: Dark Lightsbone

Flore: Is there any comment you have about this team Chrys?

Chrys: It looks good however there is an important note about people from alternate timelines you should note. alternate versions are naturally attracted to one another and you should not go further than friends as it causes complications in both timelines

Hore: "the rest of you are mission control and will be briefed separately for the temporal knife crew good luck and the ship is in Percy's workshop.

The group walked over to Percy's workshop

penil:

④ "lets get in the temporal knife but first let me deactivate the doors blocking access"

o set of doors open upon the group enters the temporal knife switches screens to the launchpad

penil:

"jewel enter the coordinates"

choices "timeline 31: reverse gender timeline of jewel's on [insert player name]"
